THE QUICK ONE
THE FRESH ONE
THE PROTECTIVE ONE

REFRESH
3in1

We know when it comes to stoma care, ostomates are looking for products offering greater simplicity, convenience and flexibility; and which are friendlier to the environment.

REMOVE. PROTECT. REFRESH.

REFRESH, a new addition to the Care Range is an innovative 3 in 1 spray developed to help simplify stoma care routines.

Thanks to its unique formulation, **REFRESH** does the same job as using three individual products by combining the properties of an **adhesive remover**, **barrier film** and a **fresh linen fragrance** all in one spray can.

With just one product, pouches can be removed easily, peristomal skin is protected and any unpleasant odours are neutralised.

NEW

- Combined adhesive remover, barrier film and a fresh linen fragrance.
- 360° spray.
- Propellant free.
- Helps to remove adhesive residue.
- Alcohol free and less chilling on application.
- 100% recyclable.

Quantity	Code	Price
50ml	R350	£9.31
150ml	R3150	£25.73

skin care

It is important to be able to protect and support skin.

odour + freshness

Odour problems associated with stoma bags can sometimes be a real problem and we know how important it is to remove this.

security + adhesion

The security of stoma bags is so important in ensuring confidence in the product at all times.
